the must read guidebook for entrepreneurs looking to get into accelerator programs and to build and scale their startups with speed accelerator programs have become one of the most powerful and valuable resources for entrepreneurs seeking to learn rapidly build powerful networks raise capital build their startups and do this at speed and scale in recent years the number of accelerator programs around the world has grown at an incredible rate propelling startups such as airbnb uber dropbox reddit and others many to billion dollar valuations the number of accelerators the differences in accelerator program offerings and the unique benefits and costs of different accelerator locations makes choosing the right accelerator a challenge selecting the wrong accelerator failing to be accepted in the right one or not fully taking advantage of all the accelerator has to offer can be costly sometimes fatal with the stakes so high entrepreneurs need to understand all their options choose carefully and do the right things to maximize their chances of success startup accelerators is the go to guide for any entrepreneur providing a firsthand look into the acceptance criteria and inner workings of different accelerator programs written by entrepreneurs for entrepreneurs this indispensable resource explains what different accelerator programs offer how to get accepted what to do during the program how to raise money during accelerators what to do after the program ends and much more packed with real world case studies and advice from leading experts on startup accelerator programs this one stop resource provides step by step guidance on the entire accelerator process reveals how accelerators help founders navigate different challenges in the startup journey describes the differences in the benefits and costs of different accelerator programs explains how to prepare accelerator applications discloses what actions to take during an accelerator to make the most of it depicts case studies of entrepreneurs accelerator applications experiences and outcomes across different accelerators features interviews with accelerator program managers founders who went through accelerators and investors in companies going through or having gone through accelerators includes insightful data and reflections from entrepreneurship education researchers and academics startup accelerators a field guide will prove to be invaluable for startup founders considering or going through accelerators as well as aspiring entrepreneurs educators and other startup accelerator stakeholders

25 steps to found and scale a high growth business the startup checklist is the entrepreneur s essential companion while most entrepreneurship books focus on strategy this invaluable guide provides the concrete steps that will get your new business off to a strong start you ll learn the ins and outs of startup execution management legal issues and practical processes throughout the launch and growth phases and how to avoid the critical missteps that threaten the foundation of your business instead of simply referring you to experts this discussion shows you exactly which experts you need what exactly you need them to do and which tools you will use to

support them and you'll gain enough insight to ask smart questions that help you get your money's worth if you're ready to do big things. This book has you covered from the first business card to the eventual exit. Over two thirds of startups are built on creaky foundations and over two thirds of startup costs go directly toward cleaning up legal and practical problems caused by an incomplete or improper start. This book helps you sidestep the messy and expensive clean up process by giving you the specific actions you need to take right from the very beginning. Understand the critical intricacies of legally incorporating and running a startup. Learn which experts you need and what exactly you need from them. Make more intelligent decisions independent of your advisors. Avoid the challenges that threaten to derail great young companies. The typical American startup costs over 30,000 and requires working with over two dozen professionals and service providers before it even opens for business. And the process is so complex that few founders do it correctly. Their startups' errors often go unnoticed until the founder tries to seek outside capital at which point they can cost thousands of dollars to fix or even completely derail an investment. The startup checklist helps you avoid these problems and lay a strong foundation so you can focus on building your business.

This book provides guidance to those with responsibility for scheduling and executing a pre-startup safety review (PSSR). It outlines a protocol and tool for use by project or turnaround teams to effectively and efficiently schedule and execute a PSSR. Integrates PSSR throughout the project turnaround phases with a verification check at the traditional PSSR step. Supports a right first time and check only once project philosophy to eliminate surprises. Features how to checklists, hazard assessment, batch and continuous processes, validation, and documentation. Includes a CD with PSSR checklists and PSSR management system examples. Note: CD, ROM, DVD, and other supplementary materials are not included as part of the ebook file.
